

# **SUPER POWER**

**THE NEWSLETTER OF THE  
THE NEW ZEALAND  
SENIORS PARTY**

**AUGUST 2016**

Volume 1 Issue 3

## **WE'VE BEEN THINKING!**

**Just to reassure members the Party's our interest does not lie only in the welfare of Seniors. A look at our policies will show that we have multiple layers of interest in the well-being of New Zealand, in all its occupants, whatever age or interest. We have radical proposals on employment, on commercialisation of local research, first home buyers, on financial institutions and on the justice system. Take a look and read our constitution and policies; it will really let you know how robust, innovative and dare I say it, intellectual, our thinking has been when deciding to form the Party. Once read I am sure you will want to recommend the Party to your friends to join!**

**Within the next few weeks we will roll out the "We are angry" campaign which we are certain will attract media attention. The campaign will concentrate on emotive issues that affect pensioner's trying to manage on meagre pensions. If you are a Senior trying to survive on \$319 per week we are sure you will be angry, very angry when you think what you were promised and what you get. The promotion will be based on emails that you can send to people you might think would like to join us but are hesitant, and posters that you can print out and place where you know a lot of Seniors congregate ie. Doctors surgeries, supermarket notice boards and if your printer will take A5 paper, small leaflets to hand out at Church, service clubs – Lions and Rotary (if you can afford to belong!!). At Lodge meetings, especially there, as we believe the average age of members is 75!!! Simple acts of help yet easy to do and unbelievably effective.**

**We are the only Party that is in tune with the total interests of all New Zealanders and Superannuitants. We are not bound by ancient dogmas or loyalties to vested interests, in many ways we are apolitical.**

**When you think about what you have missed out on; reliant on family members for a hand up and frequent visits to WINZ hoping for additional help; we are sure you will be very, very angry indeed. When you have cried because you couldn't buy the grand kids or your children a birthday or Christmas card never mind a present; when you have delayed going to the doctor, the dentist or even to visit friends; been unable to buy new clothes other than at the OP shop; get new glasses or a new set of dentures! – we think you will be very angry indeed when you realise how very, very different things could have been if the government of the day had noticed just how critical your financial situation was and honoured their promises?**

**Well – help is on the way, the New Zealand Seniors Party knows all about this by personal experiences and with your help we will have the power to drive the change Seniors so desperately need.**

**Visit the web site [www.nzseniors.org.nz](http://www.nzseniors.org.nz) and join today.**
